## FEATURES & BENEFITS

- A soft shade that combines the light control of a blind with the soft beauty of a fabric shade.
- Uniquely designed fabric has alternating bands of sheer or mesh fabric with translucent or room darkening solid fabric within the same shade.
- The bands of fabric can be aligned or offset providing total light and privacy control as well as UV protection.
- Large selection of decorative styles in a wide ranging color palette to blend with any décor.
- A matching fabric insert in the headrail is standard and provides a finished look.
- Innovative bottomrail allows the fabric to slide through for precise positioning.
- Continuous cord loop is standard.
- Choose from three motorization options:
  - Simplicity Rechargeable – great option for those hard to reach places. Rechargeable battery eliminates the external battery wand.
  - PowerWand – low cost, rechargeable motorized system raises and lowers at the touch of a button on the wand.
  - RemoteLift – trouble free operation at the touch of a button.
- Smoove 1 RTS surface mounted wall switch option now available.
- myLink RTS Interface now available.
- Limited Lifetime Warranty ensures your customers' satisfaction.

## COLLECTION INFORMATION

	Continuous Cord Loop
Minimum Width (NET)	15"
Minimum Height	24"

	Simplicity Rechargeable
Minimum Width (NET)	19"
Minimum Height	20"

	RemoteLift
Minimum Width (NET)	18"
Minimum Height	24"

	PowerWand
Minimum Width (NET)	21"
Minimum Height	20"

Maximum widths and heights for continuous cord loop and battery operated motorization noted below.

Sublime	DS17	3"	100% Polyester	Translucent	90"	100"	2

### SIDE-BY-SIDE VANE ALIGNMENT

When Dual Shades are installed side by side, vane alignment can be guaranteed within 3/8" only if:

- Shades are ordered at the same time and are identical style, color and height.
- Shades that need to be aligned are specified on the order form (a note must be included in Special Instructions).

### ORDERING NOTE

- Finished blind height will always be in the full privacy position – with bands offset
- When you align bands to the view through position, the bottom rail will raise slightly off the window sill – the gap between the sill and bottomrail is approximately 1/2 the band width.

## COLLECTION INFORMATION – 2 ON 1 HEADRAIL

### Minimum Width Per Panel:

- Continuous Cord Loop – 15" NET
- 2 on 1 is not available with any Motorization System
- Center Gap – 1/2"

### Minimum Height:

- All Styles – 24"

Minimum widths and heights for continuous cord loop noted below.

Pattern Name	Family Code	Minimum Width per panel	Maximum Overall Width	Maximum Height

- RTS – Smoove 1 RTS..... Part #1811533 ..... add \$218 each
- RTS – myLink RTS interface..... Part #1811403 ..... add \$626 each
- Radio Frequency (RF) Reloadable Single Battery Wand\*\* ..... Part #RC445268 ..... add \$225 each
- Radio Frequency (RF) Reloadable Dual Battery Wand\*\* ..... Part #RC445268 ..... add \$456 each
- Dual Wand Y Harness (required)..... Part #9018625 ..... add \$18 each
- Radio Frequency (RF) Transformer ..... Part #1822445 ..... add \$227 each
- Radio Frequency (RF) Battery Wand Extension Wire – 10"..... Part #9018686A..... add \$16 each
- Radio Frequency (RF) Battery Wand Extension Wire – 48"..... Part #9016736 ..... add \$23 each
- Radio Frequency (RF) Battery Wand Extension Wire – 96"..... Part #9018624 ..... add \$30 each
- Radio Frequency (RF) Lithium Batteries (Reloadable Wand – 8 each) ..... Part #9014834 ..... add \$75 each
- Solar Recharge Kit (batteries NOT included) .....Part #9019034.....add \$414 each  
(Includes solar panel, 10" Y harness, 12v reloadable battery tube, tube mounting clips, glass mount adhesive tape, solar panel mounting brackets – 4 qty.)
- NiMh Rechargeable Batteries (quantity of 10).....Part #9018621 .....add \$117 each
- Plug-in AC Battery Rapid Charger (for solar recharge kit only) (includes 12" cable).....Part #9018620.....add \$410 each
- 48" Extension Cable for Y Harness .....Part #9016374.....add \$27 each

Notes: \* RemoteLift power source options: Reloadable Single Battery Wand, Reloadable Dual Battery Wand, and Transformer (plugs into standard wall outlet)

\*\* Each Reloadable Battery Wand comes with a set of 8 AA lithium batteries on initial shade orders. The part numbers above reference the battery wands only. The part # for replacement pack of 8 AA lithium batteries is #9014834.

When ordering multiple motorized shades/remotes, please provide programming instructions. Otherwise, all shades will be programmed to one remote.

## PRODUCT SPECIFICATIONS

### Cassette Measurement

- 3-5/8" wide x 3" high

### Mounting Requirements

#### Inside Mount

- Minimum shallow mounting surface: 1-1/2"
- Minimum flush inside mounting including brackets for cassette: 3-3/4"

#### Outside Mount

- Minimum outside mount surface: 1-1/2"

### Hardware Colors

Cassette available in white, beige, black, dark brown and anodized silver.

- A matching fabric insert in headrail is a standard feature  
**Please Note:** on certain fabrics with narrower bands, the fabric insert will feature both the solid fabric and the sheer.
- Fabric-wrapped bottomrail is a standard feature (non-wrapped bottomrail optional)
- Universal metal bracket will be supplied
- Cord loops and tensioners are color-coordinated

### Metal Bead Chain Option

- Metal Chain optional in the following colors: White, Black, Antique Brass, Oil Rubbed Bronze, Stainless Steel, and Nickel  
(Please note: when metal bead chain option is selected, the tensioner color will coordinate with the cassette headrail color. If the cassette headrail is silver, the tensioner will be white)

### Cord Loop, Metal Beaded Chain Lengths

SHADE HEIGHT	LOOP DROP
24" - 39 7/8"	24" loop
40" - 59 7/8"	36" loop
60" - 83 7/8"	48" loop
84" - 107 7/8"	60" loop
108" - 120"	72" loop

**Please Note:** Environmental conditions, such as heat, humidity, etc., may result in light bowing, puckering and dimpling of the fabric which is considered normal. Some fabrics may lightly fray which is considered normal and within specifications.

## SIMPLICITY RECHARGEABLE MOTORIZATION: OVERVIEW

### Simplicity Rechargeable

- The Rechargeable Simplicity motor program features an integrated rechargeable lithium ion battery in the motor casing and is fully concealed by the inner tube.
- Rechargeable battery is included with the motor. The average battery charge will last 6-12 months based on an average sized shade raised and lowered once per day. The life of the battery charge will vary based on the type of window covering selected, the size and weight of the window covering and the number of times the shade is operated on a daily basis. The battery can be recharged up to 500 times. It takes approximately 5 hours to recharge the motor when fully depleted.

### Battery Charger

- An 8.4 Volt charger requires a standard power outlet to recharge the battery. The charger must be specified when ordering Simplicity Rechargeable Motorized shade option. The charger plugs into the charging port of the motor. The charger is black and comes with a 156" wire. The dimensions are 1" wide x 2-1/2" length x 1-3/4" deep. Sold separately.

### Solar Panel Recharge Option

- Plugs in to any Simplicity Rechargeable motorized shading (does not work with PowerWand). Provides constant trickle charge to 7.4v Li-ION Rechargeable battery packs. Does not require direct sunlight, but performs best in regular direct sunlight applications. Will prolong the life of the charge of the 7.4v rechargeable battery packs, and in some applications will maintain charge indefinitely.
- Life of charge is subject to application variables such as, size and weight of shade, frequency of use, amount of direct sunlight exposure, etc.

### 5 Channel Remote

- The remote can operate up to five shadings simultaneously, individually or in groups. Remotes and holders are available in white or black. The remote comes with a holder which can be mounted to a wall for easy storage. The range of the remote is approximately 80 feet.

Please Note:

- Motor is only available on the right side.
- Not all motors run at the same rate of speed.
- Simplicity motors have a "Favorites" position setting. To set a "Favorites" position, follow instructions provided in the installation instructions.

---

## POWERWAND MOTORIZATION: OVERVIEW

---

### PowerWand™ Motorization

- Dual Shades can be fabricated with the PowerWand Rechargeable Push Button Control option. The PowerWand Rechargeable option is an easy, cord free motorized operation for the budget savvy homeowner. PowerWand Rechargeable uses Simplicity motors and components.

### PowerWand Rechargeable Shades Operation

- Press the up or down button on the pendant to raise or lower the shading to your desired position. No programming is required with PowerWand as upper and lower limits are set at the factory. If desired, upper and lower limits can be adjusted in the field.
- Please refer to the installation instructions for instructions on resetting the upper and lower limits and setting a favorites position can be programmed on-site.

### PowerWand Appearance

- The PowerWand Rechargeable wand and pendant is attached to the head rail and requires no additional mounting.
- The wand and pendant hangs down the front of the shades from the head rail.
- Pendant is 2-1/2" long.
- The pendant does not need to be mounted to the wall to operate the shade.

### PowerWand Options

- Wand is available in Black or White (there is no default)
- Wand is available in 1 foot increments from 1 to 5 feet (there is no default)
- Wand is available on either the right or left side of the shade (there is no default)

White

Black Shown with  
Plug-In Charger

### PowerWand Battery Life

- The battery life will vary based on the type of window covering selected, the size and weight of the window covering and the number of times you operate the blind on a daily basis.

### Battery Charger

- 8.4 Volt charger requires a standard power outlet to recharge the battery. The charger must be specified when ordering the PowerWand motorization option. The charger plugs into the charger port on the side of the pendant. The charger is black and comes with a 156" wire. The dimensions are 1" wide x 2-1/2" length x 1-3/4" deep.

## REMOTELIFT™ MOTORIZATION: OVERVIEW

---

With RemoteLift™ motorized shades, enjoy a better quality of life and have more time to enjoy life's daily pleasures. At the touch of a button, window coverings can be instantly adjusted to changing activities or the varying sun conditions.

An ideal solution is to manage glare with a RemoteLift hand-held remote control. At the simple touch of a button, shades will open or close to adjust to the changing sunlight in a room.

RemoteLift Radio Frequency (RF) motorized shades provide ultra-quiet operation. The system can operate shades from virtually anywhere in the house without direct line of sight. Similar to how a garage door opener operates, radio signals travel through walls and make it possible to control multiple coverings throughout the home alone or as a group. The RF system is also available in a 5-channel version. The multi-channel RF system allows for independent control of individual shades and/or group control.

---

RemoteLift motorization systems provide many benefits, such as improving energy efficiency, providing easily controllable privacy and also enhancing home security.

---

The RemoteLift RF timer allows users to program specific times of the day to automatically adjust shades in different areas of the house, protecting interiors from the fading effects of direct sunlight. This feature provides added security to an unoccupied home by creating a lived in look even while homeowners are away on vacation.

The battery powered RemoteLift RF wireless wall switch allows shades to be controlled when entering or exiting a room, just like the lights. The switch may be seamlessly installed without wiring next to any light switch or stand alone, and is never misplaced. This one touch privacy helps create the ideal environment whether preparing for a bath, relaxing in bed or enjoying time with the family at home.

The Smoove® 1 RTS surface-mounted wall switch avoids cutting into drywall. This single channel, battery-operated solution is easy to install, and doesn't require an electrician. It's an intuitive, surface mount control.

The myLink™ RTS Smartphone and Tablet Interface is a WiFi to Radio Technology Somfy® (RTS) bridge that can control up to 5 channels of RTS motorized products using the Somfy myLink apps for iOS and Android devices. Through the app, users can send immediate RTS commands, create scenes (a group of motorized products working together) and schedules (timed events). Users may access their myLinks from anywhere with the app's remote access feature. Though the myLink is a single-zone controller, multiple myLinks can be joined within the same system for multi-zone control.

---

RemoteLift motorized shades are powered by Somfy, an industry leader in automated window coverings. All motorized products are backed by a 5 year warranty.

# REMOTELIFT™ MOTORIZATION: FEATURES & OPTIONS

## RADIO FREQUENCY (RF) MOTORIZATION FEATURES:

- Highest quality patent protected design by Somfy
- Advanced motor, capable of lifting shades up to 12 LBS.
- Quiet operation
- Motor is fully enclosed within the headrail
- Installs with standard installation hardware
- RF motor is programmable

Note: The power source must be selected when ordering. The options are: reloadable single or dual battery wand, and the plug-in transformer.

# REMOTELIFT™ ROLL-UP 28 WIREFREE™ RTS QUICK PROGRAMMING GUIDE

**BEFORE YOU BEGIN:** Check if you have a paired remote with the following directions:

- 1) Supply power to the motor by connecting the power source to the power cable on the motor.
- 2) If a remote was ordered, press a directional button (UP or DOWN) and see if the shade operates. If a multi-channel remote was ordered, select the channel the shade should be programmed under then operate the shade.
  - a) If the shade operates - the shade is already programmed.
  - b) If the shade does not operate - choose the channel on which you would like to control the shade. **PRESS & HOLD** the **PROGRAMMING BUTTON** on the motor until it jogs once. Then **BRIEFLY PRESS** the **PROGRAMMING BUTTON** on the remote. The shade will jog once. The shade is now programmed.

**NOTE:** Upper and lower limits are set at the factory. In the event limit setting is required, please follow steps under Initial Programming and Limit Setting.

## INITIAL PROGRAMMING AND LIMIT SETTING

**NOTE:** Motor will exit programming mode after 2 minutes of inactivity. While in **programming mode**, the shade only operates when UP or DOWN buttons are continuously pressed.

**Step 1:** To initiate programming **PRESS & HOLD** the **UP and DOWN** buttons at the same time until the shade jogs.

**Step 2:** Check the direction of operation. Press the **DOWN** button and confirm the shade lowers.

If the shade raises instead of closing, change the direction - **PRESS & HOLD** the **MY/STOP** button until the shade jogs. Confirm correct direction of operation before proceeding.

**Step 3:** Bring the shade to your desired upper limit. **PRESS & HOLD** both the **MY/STOP** and **DOWN** buttons until the shade begins to move down, then release. Stop the shade at the desired lower limit, adjust by pressing the **UP** or **DOWN**.

**Step 4:** **PRESS & HOLD** the **UP** and **MY/STOP** buttons until the shade begins to move up. The shade will stop at the original upper limit. Adjust if necessary.

**Step 5:** **PRESS & HOLD** the **MY/STOP** button until the shade jogs to confirm both limit settings.

**Step 6:** To finalize **BRIEFLY PRESS** the **PROGRAMMING BUTTON** on the back of the control. The shade will jog and will now operate in **user mode**. A brief press of the UP or DOWN button will send the shade to the respective limit.

## ADJUSTING THE LIMITS IN USER MODE

### UPPER LIMIT

### LOWER LIMIT

**Step 1:** Move the shade to the current limit position you wish to adjust and let it stop.

**Step 2:** **PRESS & HOLD** both **UP** and **DOWN** buttons simultaneously until the shade jogs, then release.

**Step 3:** Adjust to a new limit position using the **UP** or **DOWN** buttons.

**Step 4:** **PRESS & HOLD** the **MY/STOP** button until the shade jogs, then release. Check the new limit.

# REMOTELIFT™ ROLL-UP 28 WIREFREE™ RTS QUICK PROGRAMMING GUIDE

## ADD OR DELETE A CONTROL

a) **PRESS & HOLD** the **PROGRAMMING BUTTON** on the back of Control 1 until the shade jogs.

**CONTROL 1:**  
Previously programmed control - single channel or the channel (1-5) of a multi-channel remote.

b) **BRIEFLY PRESS** the **PROGRAMMING BUTTON** on the back of Control 2. The shade jogs.

**CONTROL 2:**  
Second control to be added or deleted - single channel or the channel (1-5) of a multi-channel remote.

*The procedure to delete an RTS sensor is the same.*

## ENABLING SLEEP MODE

**The shade must be programmed.**

**This feature temporarily prevents the motor from responding to any previously programmed remote commands.**

1) **PRESS & HOLD** the motor head **PROGRAMMING BUTTON** until the shade jogs.

2) **BRIEFLY PRESS** the motor head **PROGRAMMING BUTTON**, the shade jogs twice. Sleep Mode is activated.

## DISABLING SLEEP MODE

3) Press the motor head **PROGRAMMING BUTTON**.

The shade jogs and the remote commands are enabled.

**NOTE:** If step 3 is not performed, Sleep Mode will automatically disable after approximately 10 minutes.

## RESETTING THE MOTOR TO FACTORY MODE

**PRESS & HOLD** the **PROGRAMMING BUTTON** on the motor (shown below) for approximately 12 seconds during which the shade will jog 3 separate times.

Programming Button

All programmed remotes and limit settings will be erased. Motor is now reset to **factory mode**. Motor limits will need to be re-established.

## SETTING INTERMEDIATE "MY" POSITION

1) Move the shade to the desired position and press **MY/STOP** button to stop the shade.

2) **PRESS & HOLD** the **MY/STOP** button until the shade jogs. The "my" favorite position is set.

3) To set a NEW "my" position, repeat steps 1 and 2.

**To delete:** First send the shade to the current "my" position, then **PRESS & HOLD** the **MY/STOP** button for 5 seconds. The shade will jog to confirm deletion.

## USING THE INTERMEDIATE "MY" POSITION

While the shade is stationary, a simple press of the **MY/STOP** button will move the shade to the "my" intermediate position from any shade position.

If the shade is in motion, first stop it by pressing **MY/STOP** and then **MY/STOP** again to send it to the "my" position.

## ADJUSTING THE SPEED

LED blinks alternately in green and yellow during the adjustment.

1) Move the shade away from the end limits. **PRESS & HOLD** the **UP, MY/STOP and DOWN** buttons simultaneously, until the shade jogs. The shade will move up and down automatically in ten second cycles.

2) To increase the speed, **PRESS & HOLD** the **UP** button until the shade jogs. Repeat as needed.

Maximum speed is achieved when the shade no longer jogs when the UP button is pressed.

3) To decrease the speed, **PRESS & HOLD** the **DOWN** button until the shade jogs. Repeat as needed.

Minimum speed is achieved when the shade no longer jogs when the DOWN button is pressed.

4) To confirm the new speed, **PRESS & HOLD** the **MY/STOP** button until the shade jogs.
